EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hannon on 2-20-07.

In claim 20, line 1, "19" has been deleted and – 1 – inserted therein.

In claims 16, 17, 21, 22, 23 on line 2, the "," at the end of the sentence is deleted and replaced with a - - - .

REASONS FOR ALLOWANCE

No prior art was found, which disclosed using a die plate having openings of at least two different sizes to simultaneously obtain granules with different average diameters as in claim 1. The reference to Corriveau is not seen to be combinable with the reference to Bernatz et al. since Corriveau uses gum chips of varying sizes, but not granules having two different average diameters.

Any inquiry concerning this communication should be directed to Helen F. Pratt at telephone number 571-272-1404.
